- Designed for powerful sound, even outdoor

### UNE LÉGENDE DU SON

Over 65 years ago our founder, Paul W. Klipsch, set out to build a loudspeaker that would capture the unique emotional experience of a live concert and, in the process, started a revolution in the recorded music listening world. We strive for that emotional impact in everything we build today. Our passion for the highest quality sound is heard in the dynamic, lifelike and detailed sound of all our products, including the KMC 3 wireless music system.
